

Gappro Menu Guide

The starter page show a basic menu code:

```
<div class="icon-menu">
  <ul>
    <li class="current">
      <a href="index.html" title="Dashboard"> <i class="icon-da
      </a>
      <span>Home</span>
    </li>
    <li>
      <a href="widget.html" title="Widget"> <i class="icon-th-l
      </a>
      <span>Items</span>
    </li>
    <!-- Customize menus here-->
  </ul>
</div>
```

you can using sub menus:

```
<li>
  <a href="widget.html" title="Widget"> <i class="icon-th-large"></i>
  <span>Items Menus Example</span>
  <ul class="sub-menus">
    <li>
      <a href="widget.html"> <i class="icon-arrow-right"></i>
      Sub Link
    </a>
    </li>
  </ul>
</li>
```
